**Department of
Planning and
Health Information**

February 2008

FOREWORD

An important aspect of Health Planning and Management is the collection, analysis and use of reliable health information . Indeed, an effective health information system contributes significantly to effective monitoring and evaluation of the progress of health system development in Cambodia .

This **13th** National Health Statistics Report provides a wide range of information to all information users. Health care providers, managers and others at all levels are increasingly using health information obtained through the National Health Information system not merely for management of health service delivery and planning, but also for monitoring and evaluation of their activities and programs.

The Ministry of Health would like to take this opportunity to thank all partners, provincial and municipal health departments , other concerned departments and centers, as well as various organizations for their collaboration in making this edition possible.

Director General for Health

Phnom Penh, February , 2008

INTRODUCTION

For more than a decade, the Ministry of Health's (MOH) Health Information Bureau under the Department of Planning and Health Information (DPHI) has been publishing an annual compendium of health data called the National Health Statistic (NHS), based on statistics generated from the nationwide Health Information System (HIS). The current report follows in this tradition in containing health statistics pertaining to the year **2007**.

This edition of the report contains some differences from those of previous years, aimed primarily at making the data more easily understandable. Finally, a brief narrative has been added for some of the key statistic. As noted in the following Table on data coverage, all 24 provinces, as well as the nine national hospital have submitted regular monthly reports on patients statistics and utilization for **2007**. Where necessary, these have been aggregated to show country-wide totals or averages.

A couple of caveats should be kept in mind while perusing the data. These data are exclusively based on information received from public health facilities and those national hospitals supported either fully or in part by public funds. In that sense, this report cannot provide an accurate picture of health facilities whose data are not included in this report. The Bureau continues to make efforts to encourage private practitioners to file regular reports with the MOH in this regard. Interested readers may wish to consult findings from several recent national surveys such as the Cambodia Inter-censual Population Survey 2004 (CIPS), the Cambodia Socio-Economic Survey 2004-05 (CSES), and the Cambodia Demographic and Health Survey 2005-06 (CDHS) to supplement the information contained in this report. For road traffic accident injuries, additional information can be obtained from the Cambodia Road Traffic Accident and Victim Information System's monthly and annual reports published jointly by the Ministries of Interior, Health, and Public Works and Transport, with technical assistance from Handicap International, Belgium (www.cnctp.info).

For inquiries about the data contained in this report, or to provide suggestions for future improvements to the report, readers are encouraged to contact the Health Information Bureau, Department of Planning and Health Information at the Ministry of Health, 151-153 Kampuchea Krom Blvd, Phnom Penh, Tel: 023 427 368 or e-mail: buthsaben@yahoo.com and dararith_york@yahoo.com

Data coverage	4
Summary of National Health Indicators	5
1 Demographic Data	5
1.1 Estimated population (million)	5
1.2 Crude Birth Rate	5
1.3 Estimated population under 1 year	5
2 Utilization of Health Services	8
2.1 Out-patient consultations and number of new cases by province	8
2.2 Out-patient consultations and number of new cases in national hospital	10
2.3 Out-patient consultations and new cases by age group by province	11
2.4 Out-patient consultations and new cases by age group in national hospital	14
2.5 Out-patient consultations, new cases by province, by age group and by diseases	15
2.6 Out-patient consultations, new cases in national hospital by age group and by diseases	16
2.7 Antenatal Care Activities	17
2.7.1 Antenatal consultations by province	17
2.7.2 Antenatal consultations in national hospitals	19
2.7.3 Number and % of at risk pregnancies and cases referred by province & national hospital	20
2.8 Delivery Activities	24
2.8.1 Home deliveries, health center deliveries and hospital deliveries	24
2.8.2 Problems related to deliveries at Health Center (dystocia, hemorrhage, maternal deaths)	28
2.8.3 Problems related to deliveries at RH & NH (dystocia, cesarean section, maternal deaths)	32
2.8.4 Post-partum activities at Health Centers	38
2.8.5 Post-partum activities in National Hospital	41
2.9 Birth Spacing Activities	42
2.10 Expanded program of immunization activities	47
2.10.1 Immunization coverage of children under 1 year of age by province	47
2.10.2 Tetanus Toxoic immunization coverage	51
2.10.3 Pregnant women received Folic acid and Iron Supplementation	58
2.10.4 Vitamin A program	62
2.10.5 Deworming : Mebendazole	63
3 Technical Laboratory Activities	66
3.1 Malaria	66
3.1.1 Slide	66
3.1.2 Dipstick	69
4 Main Hospital Indicators	72
4.1 Main Hospital Indicators at referral Hospital	72
4.2 Main Hospital Indicators in National hospital	78
4.3 Main Hospital Indicators at Former District hospital	79
5 Main Health problem among Inpatients	82
5.1 Main Health problem among inpatients at Referral Hospitals	82
5.2 Main Health problem among inpatients in National Hospital	83
5.3 Main Health problem among inpatients in Former District Hospital	84
6 Surgical Activities	85
6.1 Surgical Activities at Referral hospitals	85
6.2 Surgical Activities in National hospitals	89

1. 2 - Socio-demographic indicators

Demographic

Population	14363519 Millions ¹
Urban	15%
Rural	85%
Males	48.3%
Females	51.7%
Sex Ratio (number of males for 100 females)	93.5
Distribution of population by age group(1)	
0 _ 4 years	11.1%
0-14 years	38.6%
5-14years	27.5%
15_49 years (Women in reproductive age only)	26.0%
Annual Population Growth Rate	1.81%
Male Life expectancy at birth	58
Female Life expectancy at birth	64
Number of regular households	2,530,000
Average households size	5.1
Density per km ²	74

Health

Total Fertility Rate (TFR)	3.4 ²
Infant Mortality Rate (IMR)	65 per 1,000 live births ²
Under 5 Mortality Ratio (U5MR)	83 per 1,000 live births
Maternal Mortality Ratio (MMR)	472 per 100,000 live births
Crude Birth Rate (CBR)	25.6 per 1,000 population
Contraceptive Prevalence rate (any method) (CPR)	27%
Percentage of households with access to safe drinking water (total)	44% ¹
- Urban	72%
- Rural	40%
Percentage of households with toilets facility within premise (total)	22%
- Urban	55%
- Rural	16%

Education

Adult literacy age 15 and over (total)	73.6% ¹
- Male	84.7%
- Female	64.1%
- Urban (both sexes)	83.8%
- Rural (both sexes)	71.7%

Economic

Government expenditures on health care per capita per year (USD)	4.64 ³
